Aim and objectives:

Career counselling seeks to help individuals understand themselves as well as current industry trends in order to help them make an informed decision about their profession and education. No matter if we are already in a career or are just thinking about it, having a professional on our side is always advantageous. Career counselling aids in developing and accomplishing long-term professional objectives by using personality and aptitude tests that were created with scientific rigour.

The Patharkandi College Career counselling & placement cell organized an event. Mr Abdul Sayed, Deptt. of Arabic, Karimganj College was a chief guest as well as mentor of that event. He delivered a lecture on the future prospects of the students on various job opportunities. As a teacher of Arabic, he elaborately discussed the bright future of the students who usually take foreign language as his/her elective subjects. The programme was ended with the speech of Dr. Monjurul Hoque, the principal of Patharkandi College. About 100 students attended the programme.
