WORLD ENVIRONMENT DAY
HELD ON 05/06/ 2017

PATHARKANDI COLLEGE
DIST. KARIMGANJ-788724
ASSAM, INDIA

Aim and objectives:

Environment is an important issue across the world. World Environment Day is celebrated annually on 5th June. The environment is the place where living things dwell, safety is necessary. The rise in environmental pollution and degradation in the quality of the environment are the big challenges in the world. The land, marine life, greenery, mountains, water bodies, and all living creatures are part of this environment.

Sadly, due to rising pollution, global warming, deforestation, and many environments degrading activities the United Nations came up with the idea of establishing the World Environment Day. Its main motive is to raise awareness of environmental safety and its protection.

Keeping in view of this point, Patharkandi College N.S.S Unit organized an event of that day.
