WORLD ENVIRONMENT DAY
HELD ON 5TH JUNE, 2021

PATHARKANDI COLLEGE
DIST. KARIMGANJ-788724
ASSAM, INDIA

Report on the event on "World Environment Day", held on 5th June, 2021.

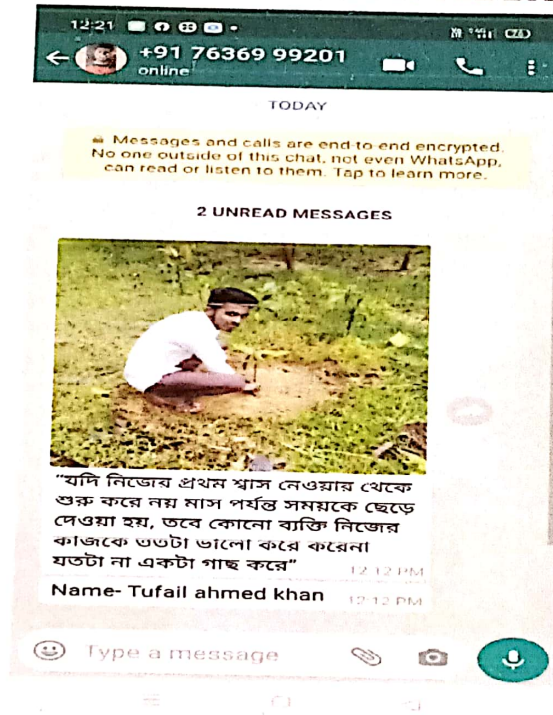

Aim and objectives:

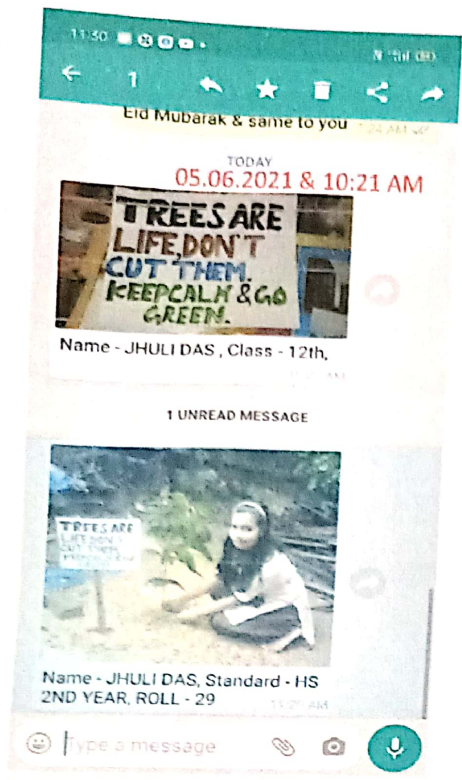

Environment is an important issue throughout the world. World Environment Day is celebrated annually on 5th June. The environment is the place where living things dwell, safety is necessary. The rise in environmental pollution and degradation in the quality of the environment is a big challenge for the world. The land, marine life, greenery, mountains, water bodies, and all living creatures are part of this environment.

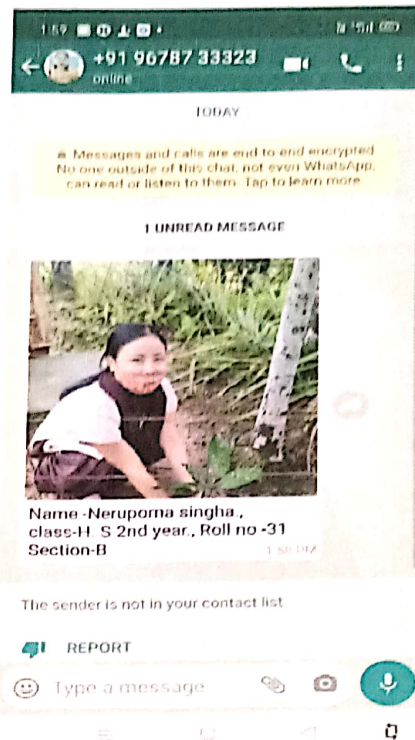

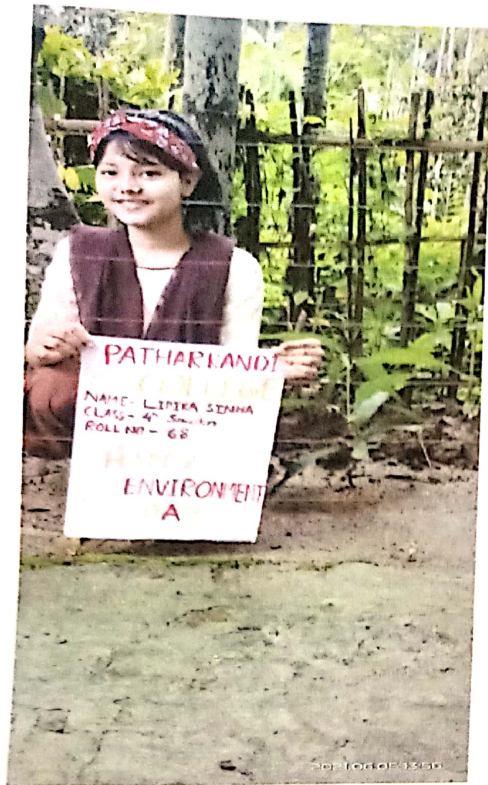

Sadly, due to rising pollution, global warming, deforestation, and many environments degrading activities the United Nations came up with the idea of establishing the World Environment Day. Its main motive is to raise awareness of environmental safety and its protection.

Keeping in view of this point, Patharkandi College N.S.S Unit organized an event of that day. We are at the stage of COVID-19 pandemic, all the N.S.S Volunteers as well as college students were participated in this event with sapling trees from their home. Around 500 sapling trees were planted at the homes of our college students. Some pictures of this events are attached herewith

GLIMPSE OF FEW MOMENTS OF THE EVENTS
