

About Patharkandi College

Patharkandi College is a premier institute of higher learning in southern Assam. The college, established in 1990 is recognized under 2(f) and 12(b) of the UGC Act, 1956 and is permanently affiliated to Assam University Silchar. This college offers UG Programmes in Arts and Science. Situated on the foothills of Rajbari, Patharkandi near Indo Bangladesh border, this college is playing a significant role for last two and half decades in the field of Higher Education of this remote region.

With over two thousand intake capacity and excellent backing of the on-campus support services this provincialized college under the Government of Assam, provides quality education to the students from all the three districts of Barak Valley of Assam and the neighbouring states of Mizoram, Manipur, Nagaland and Tripura. Patharkandi College has twelve departments, thirty faculty members drawn from the best pool of the state and over fifteen non-teaching support staff always ready to facilitate the academics.

About Department

The Department of Botany was established in 2020, with the commencement of the Science Stream at Patharkandi College. The Botany department offers four-year B.Sc. degrees under the Assam University FYUG curriculum under NEP 2020. The department consist of two faculty members who ensure that students receive the best education possible. Faculty members are also actively involved in research and project execution. Students are given numerous opportunities to develop the attitude and aptitude to apply methods and ideas in a wide range of jobs in education, business, industry, and government. They are enthusiastic in handling seminars and participating in group discussions. In addition to emphasising consistent and strong academic performance, the department encourages students to participate in curricular and cocurricular activities in order to bring out the best in them.

PATHARKANDI COLLEGE

Celebrating International Day of Biological Diversity 2024

Date: 21st and 22nd May

Organized by
Department of Botany
Patharkandi College

Significance of the Day

The International Day for Biological Diversity 2024, celebrated on May 22, highlights the critical importance of biodiversity in ensuring the health of ecosystems, sustaining human well-being, and fostering resilience to environmental changes. This year's theme, "From Agreement to Action: Build Back Biodiversity," underscores the urgency of translating global commitments into concrete actions to restore and protect the world's biological diversity. The day serves as a call to action for governments, organizations, and individuals to implement strategies that halt biodiversity loss, promote sustainable use of natural resources, and integrate biodiversity considerations into all aspects of development and policy-making. By focusing on actionable steps, the 2024 celebration aims to galvanize efforts towards achieving the goals set forth in the Kunming-Montreal Global Biodiversity Framework

Day two (22nd May 2024)
